Features/Benefits

- Higher Grip Capacity
- Increase Holding Capacity
- Accommodates Both Clockwise and Counterclockwise Helix
- Smaller Size Design Envelope
- Optional Stainless Steel Construction

How To Determine Clockwise/Counterclockwise Part Numbers

To determine the helix direction of a hose: Look at the end of the hose. If the helix goes away from you to the right in a clockwise direction, order a right hand clamp. If the helix goes away from you to the left in a counterclockwise direction, order a left hand clamp.
